STONE LOOK

Mystone Silverstone20

Mystone Silverstone20 reinterprets sandstone in a 20mm thick version designed for outdoor architecture. Available in Nero, Beige and Antracite in the 60×60 cm size, it combines aesthetic balance and technical strength. The structured surface ensures excellent slip resistance and durability, making it ideal for terraces, walkways and contemporary outdoor areas. Its natural, understated look provides visual continuity with interiors for harmonious, cohesive design projects.
